Subject index*

Meeting abstracts are located in the April issue.

A

Abstracts
APIC 26th Annual Educational Conference and International Meeting. 1999;27:182-232

***Acinetobacter* infections**
Effectiveness of hand-cleansing agents for removing *Acinetobacter baumannii* strain from contaminated hands (Cardoso et al). 1999;27:327-31
Pathophysiology of surgical site infection in total hip arthroplasty (Seibert). 1999;27:536-42
Pseudomeningitis caused by *Acinetobacter baumannii* (Cunha et al). 1999;27:179-81 (Letter)
Unusual genetic heterogeneity of *Acinetobacter baumannii* isolates in a university hospital in Italy (Villari et al). 1999;27:247-53

Alcohol
A close look at alcohol gel as an antimicrobial sanitizing agent (Paulson et al). 1999;27:332-8
Handwashing with soap or alcoholic solutions? A randomized clinical trial of its effectiveness (Zaragoza et al). 1999;27:258-61

Anthrax
Risks of publicity about bioterrorism: anthrax hoaxes and hype (Cole). 1999;27:470-3

Antibiotic prophylaxis
Prescribing practice for antibiotic prophylaxis for 3 commonly performed surgeries in a teaching hospital in Brazil (Heineck et al). 1999;27:296-300

Antibiotics
Antimicrobial prescribing in long-term care facilities: prospective evaluation of potential antimicrobial use and cost indicators (Mylotte). 1999;27:10-9
Improving the appropriateness of vancomycin use by sequential interventions (Lipsky et al). 1999;27:84-90

Anti-infective agents, local
Bacterial resistance and topical antimicrobial wash products (Jones). 1999;27:351-63 (Special article)

APACHE
APACHE II and ISS scores as predictors of nosocomial infections in trauma patients (Hurr). 1999;27:79-83

Arthroplasty, replacement, hip
Pathophysiology of surgical site infection in total hip arthroplasty (Seibert). 1999;27:536-42

Association for Professionals in Infection Control and Epidemiology
Abstracts of the 26th Annual Educational Conference and International Meeting. 1999;27:182-232
APIC guidelines committee: using science to guide practice (Underwood and Pirwitz). 1999;27:141-4
Continuing Education Examination on "Home Hygiene Supplement." 1999;27:S40-2 (Contin. educ.)
Home hygiene supplement examination. 1999;27:S40-S42 (Continuing education)
Overview of bioterrorism readiness plan: a template for health care facilities (English). 1999;27:468-9

Australian Infection Control Association
Who coordinates infection control programs in Australia? (Murphy and McLaws). 1999;27:291-5

B

Bacillus cereus
Bacillus cereus infections among oncology patients at a children's hospital (Christenson et al). 1999;27:543-6

Bacteremia
Chryseobacterium meningosepticum bacteremia secondary to central intravenous line-related infection (Yannelli et al). 1999;27:533-5 (Clinical case study)
Methodologies used in surveillance of surgical wound infections and bacteremia in Australian hospitals (Murphy and McLaws). 1999;27:474-81
Needleless intravenous systems: a review. 1999;27:431-4 (State of the science)

Bandages
A prospective, randomized, controlled trial comparing transparent polyurethane and hydrocolloid dressing for central venous catheters (Nikoletti et al). 1999;27:488-96

Bioterrorism
An ounce of prevention is worth a pound of cure—shoring up the public health infrastructure to respond to bioterrorist attacks (Bryan and Fields). 1999;27:465-7
Bioterrorism: media hype or real potential nightmare (Osterholm). 1999;27:461-2 (Guest editorial)
Centers for Disease Control and Prevention bioterrorism preparedness and response (Lillibridge et al). 1999;27:463-4
Overview of bioterrorism readiness plan: a template for health care facilities (English). 1999;27:468-9
Risks of publicity about bioterrorism: anthrax hoaxes and hype (Cole). 1999;27:470-3

Bloodborne pathogens
Evaluating the protective value of hospital gowns....(Belkin) (Letter); (Nichols et al) (Reply). 1999;27:177-8
In-use barrier integrity of gloves: latex and nitrile superior to vinyl (Rego and Roley). 1999;27:405-10, 1999;27:542 (Correction)
Medical records contaminated with dried blood: a quality issue (Fishman et al). 1999;27:438-43
Retrospective donor profiling: a tool for enhancing blood safety (Goodwin and Kywe). 1999;27:388-91

Blood donors
Retrospective donor profiling: a tool for enhancing blood safety (Goodwin and Kywe). 1999;27:388-91

Brazil
Infection control in a Brazilian regional multihospital system (de Oliveira and Branchini). 1999;27:262-9

Burns
Efficacy of topical silver against fungal burn wound pathogens (Wright et al). 1999;27:344-50

C

Canada
APCI/CHICA–Canada infection control and epidemiology: professional and practice standards (Horan-Murphy et al). 1999;27:47-51 (Special comm.)

Catheterization, central venous
Chryseobacterium meningosepticum bacteremia secondary to central intravenous line-related infection (Yannelli et al). 1999;27:533-5 (Clinical case study)
A prospective, randomized, controlled trial comparing transparent polyurethane and hydrocolloid dressing for central venous catheters (Nikoletti et al). 1999;27:488-96

Catheterization, indwelling
Drug abuse through a long-indwelling catheter cared for by an intravenous team. 1999;27:459 (Letter)

*February, 1-74; April, 75-232; June, 233-308; August, 309-376; October, 377-460; December, 461-564, S1-42.

Centers for Disease Control and Prevention
Centers for Disease Control and Prevention bioterrorism preparedness and response (Lillibridge et al). 1999;27:463-4
Commentary on the "Guideline for Prevention of Surgical Site Infection, 1999" (Lee). 1999;27:96
Guideline for prevention of surgical site infection, 1999 (Mangram). 1999;27:97-134 (Special article)
Hepatitis C position paper (Letter) (Algie); (Reply) (Sharbaugh). 1999;27:373
Intensive Care Antimicrobial Resistance Epidemiology (ICARE) surveillance report, data summary from January 1996 through December 1997 (NNIS Report). 1999;27:279-84 (Special article)
Risks of publicity about bioterrorism: anthrax hoaxes and hype (Cole). 1999;27:470-3
Selected global health care activities of the Hospital Infections Program (Manangan). 1999;27:270-4
Certification Board in Infection Control and Epidemiology
Certification in infection control and epidemiology—a celebration of 15 years (Docken and Sanders). 1999;27:514-9
Job analysis 1996: infection control professional (Turner et al). 1999;27:145-57
Child, hospitalized
Bacillus cereus infections among oncology patients at a children's hospital (Christenson et al). 1999;27:543-6
Vancomycin use in pediatric neurosurgery patients (Shah et al). 1999;27:482-7
Chlorhexidine gluconate
Comparison of the antibacterial efficacy of 4% chlorhexidine gluconate and 1% triclosan handwash products in an acute clinical ward (Faoagali et al). 1999;27:320-6
Effectiveness of hand-cleansing agents for removing *Acinetobacter baumannii* strain from contaminated hands (Cardoso et al). 1999;27:327-31
Chlorine
Effect of phenolic and chlorine disinfectants on hepatitis C virus binding and infectivity (Agolini et al). 1999;27:236-9, 1999;27:376 (Correction)
Chryseobacterium meningosepticum
Chryseobacterium meningosepticum bacteremia secondary to central intravenous line-related infection (Yannelli et al). 1999;27:533-5 (Clinical case study)
Clostridium difficile
Possible role of cross transmission between neonates and mothers with recurrent *Clostridium difficile* infections (McFarland et al). 1999;27:301-3 (Brief report)
Clothing
Defining the clinical relevance of surgical barrier testing (Letter) (Brown); (Reply) (Leonas). 1999;27:305-8
Effect of laundering on the barrier properties of reusable surgical gown fabrics (Belkin). 1999;27:304-5 (Letter)
Communicable disease control
Emerging infectious diseases and professional integrity: thoughts for the new millennium (Vermund and Fawal). 1999;27:497-9 (Special article)
Interdisciplinary group advises National Institute of Nursing Research on research opportunities for controlling emerging infections (Larson et al). 1999;27:500-2
Community and Hospital Infection Control Association-Canada
Global Consensus Conference: final recommendations (APIC et al). 1999;27:503-13
Continuing education
Continuing education. 1999;27:S40-2
Corrections
Effect of phenolic and chlorine disinfectants on hepatitis C virus binding and infectivity (Agolini et al) (1999:27:236-9). 1999;27:376
In-use barrier integrity of gloves: latex and nitrile superior to vinyl (Rego and Roley) (1999;27:405-10). 1999;27:542
Reducing the rate of nosocomially transmitted syncytial virus (Karanfil et al) (1999;27:91-6). 1999;27:303
Costs and cost analysis
Effective cost-reduction strategies in the management of regulated medical waste (Garcia). 1999;27:165-75
Sharps injuries: defining prevention priorities (Bryce et al). 1999;27:447-52
Cross infections
Additional cost savings of an effective employee influenza program on prevention of nosocomial influenza (Boersma et al). 1999;27:177-8 (Letter)
APACHE II and ISS scores as predictors of nosocomial infections in trauma patients (Hurr). 1999;27:79-83
A close look at alcohol gel as an antimicrobial sanitizing agent (Paulson et al). 1999;27:332-8
Efficacy of peroxygen compounds against glutaraldehyde-resistant mycobacteria (Stanley). 1999;27:339-43
Efficacy of topical silver against fungal burn wound pathogens (Wright et al). 1999;27:344-50
Feedback to nursing staff as an intervention to reduce catheter-associated urinary tract infections (Goetz et al). 1999;27:402-4
Levels of naturally occurring microorganisms on surgical instruments after clinic use and after washing (Chu et al). 1999;27:315-9
Molecular epidemiology of vancomycin-resistant enterococci from 6 hospitals in New York State (Bopp et al). 1999;27:411-7
National Nosocomial Infections Surveillance (NNIS) System Report, Data Summary from January 1990-May 1999, issued June 1999 (NNIS System). 1999;27:520-32
Nosocomial infections in the intensive care units at a university hospital in a developing country: comparison with National Nosocomial Infections Surveillance intensive care rates (Khuri-Bulos et al). 1999;27:547-52 (Practice forum)
Parenteral infusions bacterial contamination in a multi-institutional survey in Mexico: considerations for nosocomial mortality (Macías et al). 1999;27:285-90
Possible role of cross transmission between neonates and mothers with recurrent *Clostridium difficile* infections (McFarland et al). 1999;27:301-3 (Brief report)
Reducing the rate of nosocomially transmitted syncytial virus (Karanfil et al). 1999;27:91-6, 1999;27:303 (Correction)
Risk of cross-patient infection with clinical use of a needleless injector device (Suria et al). 1999;27:444-7 (Practice forum)
Unusual genetic heterogeneity of *Acinetobacter baumannii* isolates in a university hospital in Italy (Villari et al). 1999;27:247-53

D

Developing countries
Nosocomial infections in the intensive care units at a university hospital in a developing country: comparison with National Nosocomial Infections Surveillance intensive care rates (Khuri-Bulos et al). 1999;27:547-52 (Practice forum)
Disease reservoirs
Faucet aerators: a source of patient colonization with *Stenotrophomonas maltophilia* (Weber et al). 1999;27:59-63 (Brief report)
Disease transmission, patient-to-professional
Case report of rabies (Agnihotri et al). 1999;27:456-8 (Clinical case study)
In-use barrier integrity of gloves: latex and nitrile superior to vinyl (Rego and Roley). 1999;27:405-10, 1999;27:542 (Correction)
Disease transmission, professional-to-patient
Compliance with recommended infection control procedures among Canadian dentists: results of a national survey (McCarthy et al). 1999;27:377-84
Tuberculin skin test conversion rate in dental health care workers—results of a prospective study (Porteous et al). 1999;27:385-7
Disinfectants
Effect of phenolic and chlorine disinfectants on hepatitis C virus binding and infectivity (Agolini et al). 1999;27:236-9, 1999;27:376 (Correction)

Use of surrogate models for testing efficacy of disinfectants against hepatitis B virus (Pugh et al). 1999;27:375-6 (Letter)
Worst-case soiling levels for patient-used flexible endoscopes before and after cleaning (Alfa et al). 1999;27:392-401
Drug resistance, microbial
Bacterial resistance and topical antimicrobial wash products (Jones). 1999;27:351-63 (Special article)
Improving the appropriateness of vancomycin use by sequential interventions (Lipsky et al). 1999;27:84-90

E

Emergency service, hospital
Compliance with Universal Precautions among emergency department personnel: implications for prevention programs (Kim et al). 1999;27:453-5
Endoscopes
Worst-case soiling levels for patient-used flexible endoscopes before and after cleaning (Alfa et al). 1999;27:392-401
Environmental Protection Agency, US
Use of surrogate models for testing efficacy of disinfectants against hepatitis B virus (Pugh et al). 1999;27:375-6 (Letter)

F

Faucet aerators
Faucet aerators: a source of patient colonization with *Stenotrophomonas maltophilia* (Weber et al). 1999;27:59-63 (Brief report)
Fungal infections
Efficacy of topical silver against fungal burn wound pathogens (Wright et al). 1999;27:344-50

G

GB virus
RNA virus of hepatitis G (GB virus) prevalence in health care personnel (Quirós and Maroto). 1999;27:176-7 (Letter)
Gloves, protective
Glove resistance to permeation by a 7.5% hydrogen peroxide sterilizing and disinfecting solution (Monticello and Gaber). 1999;27:364-6 (Brief report)
In-use barrier integrity of gloves: latex and nitrile superior to vinyl (Rego and Roley). 1999;27:405-10, 1999;27:542 (Correction)
A simple hand hygiene exercise. 1999;27:370-2 (Practice forum)
Glutaral
Efficacy of peroxygen compounds against glutaraldehyde-resistant mycobacteria (Stanley). 1999;27:339-43
Guest editorials. 1999;27:1-3, 77-8, 233-5, 461-2
Guidelines
Compliance with Universal Precautions among emergency department personnel: implications for prevention programs (Kim et al). 1999;27:453-5
Infectious disease testing related to organ and tissue transplantation: results from a national laboratory survey (Domen). 1999;27:275-8
Prescribing practice for antibiotic prophylaxis for 3 commonly performed surgeries in a teaching hospital in Brazil (Heineck et al). 1999;27:296-300
Requirements for infrastructure and essential activities of infection control and epidemiology in out-of-hospital settings: a Consensus Panel report (Friedman et al). 1999;27:418-30 (Special comm.)

H

Handwashing
Bacterial resistance and topical antimicrobial wash products (Jones). 1999;27:351-63 (Special article)
A close look at alcohol gel as an antimicrobial sanitizing agent (Paulson et al). 1999;27:332-8
Comparison of the antibacterial efficacy of 4% chlorhexidine gluconate and 1% triclosan handwash products in an acute clinical ward (Faoagali et al). 1999;27:320-6
Effectiveness of hand-cleansing agents for removing *Acinetobacter baumannii* strain from contaminated hands (Cardoso et al). 1999;27:327-31
Handwashing before entering the intensive care unit: what we learned from continuous video-camera surveillance (Nishimura et al). 1999;27:367-9
Handwashing with soap or alcoholic solutions? A randomized clinical trial of its effectiveness (Zaragoza et al). 1999;27:258-61
Patient education model for increasing handwashing compliance (McGuckin et al). 1999;27:309-14
A simple hand hygiene exercise. 1999;27:370-2 (Practice forum)
Health facilities
APIC position paper: hepatitis C exposure in the health care setting (APIC Guidelines Committee). 1999;27:54-5 (Special comm.)
Effective cost-reduction strategies in the management of regulated medical waste (Garcia). 1999;27:165-75
Outcomes management: trendy phrase or mandate for survival? (Baker). 1999;27:77-8 (Guest editorial)
Overview of bioterrorism readiness plan: a template for health care facilities (English). 1999;27:468-9
Requirements for infrastructure and essential activities of infection control and epidemiology in out-of-hospital settings: a Consensus Panel report (Friedman et al). 1999;27:418-30 (Special comm.)
Role of surveillance in emerging health systems: measurement is essential but not sufficient (Lovett and Massananri). 1999;27:135-40
Health personnel
APIC position paper: immunization (APIC Guidelines Committee). 1999;27:52-3 (Special comm.)
APIC position paper: responsibility for interpretation of the PPD tuberculin test (APIC Guidelines Committee). 1999;27:56-7 (Special comm.)
Credentialing, diversity, and professional recognition—foundations for an Australian infection control career path (Murphy and McLaws). 1999;27:240-6
Handwashing with soap or alcoholic solutions? A randomized clinical trial of its effectiveness (Zaragoza et al). 1999;27:258-61
Prevalence of nonreporting behavior of sharps injuries in Taiwanese health care workers (Shiao et al). 1999;27:254-7
RNA virus of hepatitis G (GB virus) prevalence in health care personnel (Quirós and Maroto). 1999;27:176-7 (Letter)
Hepatitis B
Use of surrogate models for testing efficacy of disinfectants against hepatitis B virus (Pugh et al). 1999;27:375-6 (Letter)
Hepatitis C
APIC position paper: hepatitis C exposure in the health care setting (APIC Guidelines Committee). 1999;27:54-5 (Special comm.)
Effect of phenolic and chlorine disinfectants on hepatitis C virus binding and infectivity (Agolini et al). 1999;27:236-9, 1999;27:376 (Correction)
Hepatitis C position paper (Letter) (Algie); (Reply) (Sharbaugh). 1999;27:373
Hepatitis G
RNA virus of hepatitis G (GB virus) prevalence in health care personnel (Quirós and Maroto). 1999;27:176-7 (Letter)
History of medicine
Certification in infection control and epidemiology—a celebration of 15 years (Docken and Sanders). 1999;27:514-9
HIV
Retrospective donor profiling: a tool for enhancing blood safety (Goodwin and Kywe). 1999;27:388-91
Home care services
Continuing Education Examination on "Home Hygiene Supplement." 1999;27:S40-2 (Contin. educ.)
Hospitals
Hospital infection prevention and control: a global perspective (Cardo and Soule). 1999;27:233-5 (Guest editorial)
Infection control in a Brazilian regional multihospital system (de Oliveira and Branchini). 1999;27:262-9

Molecular epidemiology of vancomycin-resistant enterococci from 6 hospitals in New York State (Bopp et al). 1999;27:411-7
Outcomes of a postdischarge surveillance system for surgical site infections at a Midwestern regional referral center hospital (Fields). 1999;27:158-64 (Practice forum)
Reducing the rate of nosocomially transmitted syncytial virus (Karanfil et al). 1999;27:91-6, 1999;27:303 (Correction)
Selected global health care activities of the Hospital Infections Program, Centers for Disease Control and Prevention (Manangan et al). 1999;27:270-4
Unusual genetic heterogeneity of *Acinetobacter baumannii* isolates in a university hospital in Italy (Villari et al). 1999;27:247-53

Hydrogen peroxide
Efficacy of peroxygen compounds against glutaraldehyde-resistant mycobacteria (Stanley). 1999;27:339-43
Glove resistance to permeation by a 7.5% hydrogen peroxide sterilizing and disinfecting solution (Monticello and Gaber). 1999;27:364-6 (Brief report)

I

Immunization
APIC position paper: immunization (APIC Guidelines Committee). 1999;27:52-3 (Special comm.)

Infection control
An ounce of prevention is worth a pound of cure—shoring up the public health infrastructure to respond to bioterrorist attacks (Bryan and Fields). 1999;27:465-7
Antimicrobial prescribing in long-term care facilities: prospective evaluation of potential antimicrobial use and cost indicators (Mylotte). 1999;27:10-9
Bioterrorism: media hype or real potential nightmare (Osterholm). 1999;27:461-2 (Guest editorial)
Certification in infection control and epidemiology—a celebration of 15 years (Docken and Sanders). 1999;27:514-9
Commentary on the "Guideline for Prevention of Surgical Site Infection, 1999" (Lee). 1999;27:96
Defining the clinical relevance of surgical barrier testing (Brown). 1999;27:305-7 (Letter)
Evaluating the protective value of hospital gowns.... (Belkin) (Letter); (Nichols et al) (Reply). 1999;27:177-8
Faucet aerators: a source of patient colonizations with *Stenotrophomonas maltophilia* (Voss and Verweij). 1999;27:459-60
Guideline for prevention of surgical site infection, 1999 (Mangram). 1999;27:97-134 (Special article)
Hospital infection prevention and control: a global perspective (Cardo and Soule). 1999;27:233-5 (Guest editorial)
Infection control in a Brazilian regional multihospital system (de Oliveira and Branchini). 1999;27:262-9
Infection control in long-term care: news from the front (Strausbaugh). 1999;27:1-3 (Guest editorial)
Infection control programs in skilled nursing long-term care facilities: an assessment, 1995 (Goldrick). 1999;27:4-9
Infectious disease testing related to organ and tissue transplantation: results from a national laboratory survey (Domen). 1999;27:275-8
Joint Commission standards for long-term care infection control: putting together the process elements (Pritchard). 1999;27:27-34 (Special article)
Levels of naturally occurring microorganisms on surgical instruments after clinic use and after washing (Chu et al). 1999;27:315-9
National Nosocomial Infections Surveillance (NNIS) System Report, Data Summary from January 1990-May 1999, issued June 1999 (NNIS System). 1999;27:520-32
Possible role of cross transmission between neonates and mothers with recurrent *Clostridium difficile* infections (McFarland et al). 1999;27:301-3 (Brief report)
Regional data set of infection rates for long-term care facilities: description of a valuable benchmarking tool (Stevenson). 1999;27:20-6
Requirements for infrastructure and essential activities of infection control and epidemiology in out-of-hospital settings: a Consensus Panel report (Friedman et al). 1999;27:418-30 (Special comm.)
Selected global health care activities of the Hospital Infections Program, Centers for Disease Control and Prevention (Manangan et al). 1999;27:270-4
Team approach to infection prevention and control in the nursing home setting (Ahlbrecht et al). 1999;27:64-70 (Practice forum)

Infection control, dental
Compliance with recommended infection control procedures among Canadian dentists: results of a national survey (McCarthy et al). 1999;27:377-84
Tuberculin skin test conversion rate in dental health care workers—results of a prospective study (Porteous et al). 1999;27:385-7

Infection Control Nurses Association
Global Consensus Conference: final recommendations (APIC et al). 1999;27:503-13

Infection control practitioners
Credentialing, diversity, and professional recognition—foundations for an Australian infection control career path (Murphy and McLaws). 1999;27:240-6
Emerging infectious diseases and professional integrity: thoughts for the new millennium (Vermund and Fawal). 1999;27:497-9 (Special article)
Job analysis 1996: infection control professional (Turner et al). 1999;27:145-57
Who coordinates infection control programs in Australia? (Murphy and McLaws). 1999;27:291-5

Influenza
Additional cost savings of an effective employee influenza program on prevention of nosocomial influenza (Boersma et al). 1999;27:177-8 (Letter)

Infusions, intravenous
Drug abuse through a long-indwelling catheter cared for by an intravenous team. 1999;27:459 (Letter)
Needleless intravenous systems: a review. 1999;27:431-4 (State of the science)
Parenteral infusions bacterial contamination in a multi-institutional survey in Mexico: considerations for nosocomial mortality (Macías et al). 1999;27:285-90

Injury Severity Score
APACHE II and ISS scores as predictors of nosocomial infections in trauma patients (Hurr). 1999;27:79-83

Instruments
Levels of naturally occurring microorganisms on surgical instruments after clinic use and after washing (Chu et al). 1999;27:315-9

Intensive care units
Handwashing before entering the intensive care unit: what we learned from continuous video-camera surveillance (Nishimura et al). 1999;27:367-9
Intensive Care Antimicrobial Resistance Epidemiology (ICARE) surveillance report, data summary from January 1996 through December 1997 (NNIS Report). 1999;27:279-84 (Special article)
Nosocomial infections in the intensive care units at a university hospital in a developing country: comparison with National Nosocomial Infections Surveillance intensive care rates (Khuri-Bulos et al). 1999;27:547-52 (Practice forum)
A prospective, randomized, controlled trial comparing transparent polyurethane and hydrocolloid dressing for central venous catheters (Nikoletti et al). 1999;27:488-96

J

Joint Commission on Accreditation of Healthcare Organizations
Joint Commission standards for long-term care infection control: putting together the process elements (Pritchard). 1999;27:27-34 (Special article)

L

Laundry
Defining the clinical relevance of surgical barrier testing (Letter) (Brown); (Reply) (Leonas). 1999;27:305-8
Effect of laundering on the barrier properties of reusable surgical gown fabrics (Belkin). 1999;27:304-5 (Letter)
Long-term care
Antimicrobial prescribing in long-term care facilities: prospective evaluation of potential antimicrobial use and cost indicators (Mylotte). 1999;27:10-9
Infection control in long-term care: news from the front (Strausbaugh). 1999;27:1-3 (Guest editorial)
Infection control programs in skilled nursing long-term care facilities: an assessment, 1995 (Goldrick). 1999;27:4-9
Joint Commission standards for long-term care infection control: putting together the process elements (Pritchard). 1999;27:27-34 (Special article)
Regional data set of infection rates for long-term care facilities: description of a valuable benchmarking tool (Stevenson). 1999;27:20-6
Team approach to infection prevention and control in the nursing home setting (Ahlbrecht et al). 1999;27:64-70 (Practice forum)

M

Maintenance and engineering, hospital
Faucet aerators: a source of patient colonizations with *Stenotrophomonas maltophilia* (Voss and Verweij). 1999;27:459-60
Medical records
Medical records contaminated with dried blood: a quality issue (Fishman et al). 1999;27:438-43
Medical waste
Effective cost-reduction strategies in the management of regulated medical waste (Garcia). 1999;27:165-75
***Mycobacterium* infections**
Efficacy of peroxygen compounds against glutaraldehyde-resistant mycobacteria (Stanley). 1999;27:339-43

N

National Institute of Nursing Research
Interdisciplinary group advises National Institute of Nursing Research on research opportunities for controlling emerging infections (Larson et al). 1999;27:500-2
National Nosocomial Infections Surveillance System
National Nosocomial Infections Surveillance (NNIS) System Report, Data Summary from January 1990-May 1999, issued June 1999 (NNIS System). 1999;27:520-32
Needlestick injuries
Needleless intravenous systems: a review. 1999;27:431-4 (State of the science)
Prevalence of nonreporting behavior of sharps injuries in Taiwanese health care workers (Shiao et al). 1999;27:254-7
Risk of needle stick and sharp object injuries among medical students (Shen et al). 1999;27:435-7 (Brief report)
Sharps injuries: defining prevention priorities (Bryce et al). 1999;27:447-52
Neurosurgery
Vancomycin use in pediatric neurosurgery patients (Shah et al). 1999;27:482-7
Nursing homes
Infection control in long-term care: news from the front (Strausbaugh). 1999;27:1-3 (Guest editorial)
Infection control programs in skilled nursing long-term care facilities: an assessment, 1995 (Goldrick). 1999;27:4-9
Team approach to infection prevention and control in the nursing home setting (Ahlbrecht et al). 1999;27:64-70 (Practice forum)

O

Occupational exposure
Additional cost savings of an effective employee influenza program on prevention of nosocomial influenza (Boersma et al). 1999;27:177-8 (Letter)
APIC position paper: hepatitis C exposure in the health care setting (APIC Guidelines Committee). 1999;27:54-5 (Special comm.)
Oncology service, hospital
Bacillus cereus infections among oncology patients at a children's hospital (Christenson et al). 1999;27:543-6
Outcomes assessment (health care)
Outcomes management: trendy phrase or mandate for survival? (Baker). 1999;27:77-8 (Guest editorial)

P

Parenteral nutrition
Parenteral infusions bacterial contamination in a multi-institutional survey in Mexico: considerations for nosocomial mortality (Macías et al). 1999;27:285-90
Patient education
Patient education model for increasing handwashing compliance (McGuckin et al). 1999;27:309-14
Percacetic acid
Efficacy of peroxygen compounds against glutaraldehyde-resistant mycobacteria (Stanley). 1999;27:339-43
Personnel, hospital
Compliance with Universal Precautions among emergency department personnel: implications for prevention programs (Kim et al). 1999;27:453-5
Feedback to nursing staff as an intervention to reduce catheter-associated urinary tract infections (Goetz et al). 1999;27:402-4
Medical records contaminated with dried blood: a quality issue (Fishman et al). 1999;27:438-43
Patient education model for increasing handwashing compliance (McGuckin et al). 1999;27:309-14
Prevalence of nonreporting behavior of sharps injuries in Taiwanese health care workers (Shiao et al). 1999;27:254-7
Sharps injuries: defining prevention priorities (Bryce et al). 1999; 27:447-52
Povidone-iodine
Effectiveness of hand-cleansing agents for removing *Acinetobacter baumannii* strain from contaminated hands (Cardoso et al). 1999;27:327-31
Practice forum
Practice forum. 1999;27:64-70, 158-64, 370-2, 444-7, 547-52
Professional practice
APCI/CHICA–Canada infection control and epidemiology: professional and practice standards (Horan-Murphy et al). 1999;27:47-51 (Special comm.)
APIC position paper: immunization (APIC Guidelines Committee). 1999;27:141-4
Compliance with recommended infection control procedures among Canadian dentists: results of a national survey (McCarthy et al). 1999;27:377-84
Credentialing, diversity, and professional recognition—foundations for an Australian infection control career path (Murphy and McLaws). 1999;27:240-6
Job analysis 1996: infection control professional (Turner et al). 1999;27:145-57
Outcomes management: trendy phrase or mandate for survival? (Baker). 1999;27:77-8 (Guest editorial)
Who coordinates infection control programs in Australia? (Murphy and McLaws). 1999;27:291-5
Pseudomeningitis
Pseudomeningitis caused by *Acinetobacter baumannii* (Cunha et al). 1999;27:179-81 (Letter)
Public health

An ounce of prevention is worth a pound of cure—shoring up the public health infrastructure to respond to bioterrorist attacks (Bryan and Fields). 1999;27:465-7
Bioterrorism: media hype or real potential nightmare (Osterholm). 1999;27:461-2 (Guest editorial)
Centers for Disease Control and Prevention bioterrorism preparedness and response (Lillibridge et al). 1999;27:463-4
Emerging infectious diseases and professional integrity: thoughts for the new millennium (Vermund and Fawal). 1999;27:497-9 (Special article)
Interdisciplinary group advises National Institute of Nursing Research on research opportunities for controlling emerging infections (Larson et al). 1999;27:500-2

R

Rabies
Case report of rabies (Agnihotri et al). 1999;27:456-8 (Clinical case study)
Research, publication of
Guide to writing for publication in *AJIC: American Journal of Infection Control* (Goldrick et al). 1999;27:35-46
Respiratory syncytial viruses
Reducing the rate of nosocomially transmitted syncytial virus (Karanfil et al). 1999;27:91-6, 1999;27:303 (Correction)

S

Sharps injury; see Needlestick injuries
Silver
Efficacy of topical silver against fungal burn wound pathogens (Wright et al). 1999;27:344-50
Special articles
Special articles. 1999;27:27-34, 97-134, 279-84, 351-63, 497-9
Special communications
Special communications. 1999;27:47-51, 52-3, 54-5, 56-7, 418-30
Staphylococcus aureus
Global Consensus Conference: final recommendations (APIC et al). 1999;27:503-13
Pathophysiology of surgical site infection in total hip arthroplasty (Seibert). 1999;27:536-42
Staphylococcus xylosis
Risk of cross-patient infection with clinical use of a needleless injector device (Suria et al). 1999;27:444-7 (Practice forum)
Stenotrophomonas maltophilia
Faucet aerators: a source of patient colonizations with *Stenotrophomonas maltophilia* (Voss and Verweij). 1999;27:459-60 (Letter)
Faucet aerators: a source of patient colonization with *Stenotrophomonas maltophilia* (Weber et al). 1999;27:59-63 (Brief report)
Sterilization
Glove resistance to permeation by a 7.5% hydrogen peroxide sterilizing and disinfecting solution (Monticello and Gaber). 1999;27:364-6 (Brief report)
Importance of lumen flow in liquid chemical sterilization (Letter) (Alfa); (Reply) (Rutala et al). 1999;27:373-5
Risk of cross-patient infection with clinical use of a needleless injector device (Suria et al). 1999;27:444-7 (Practice forum)
Worst-case soiling levels for patient-used flexible endoscopes before and after cleaning (Alfa et al). 1999;27:392-401
Students, medical
Risk of needle stick and sharp object injuries among medical students (Shen et al). 1999;27:435-7 (Brief report)
Substance abuse, intravenous
Drug abuse through a long-indwelling catheter cared for by an intravenous team. 1999;27:459 (Letter)
Surgical wound infection
Commentary on the "Guideline for Prevention of Surgical Site Infection, 1999" (Lee). 1999;27:96
Guideline for prevention of surgical site infection, 1999 (Mangram). 1999;27:97-134 (Special article)
Methodologies used in surveillance of surgical wound infections and bacteremia in Australian hospitals (Murphy and McLaws). 1999;27:474-81
Outcomes of a postdischarge surveillance system for surgical site infections at a Midwestern regional referral center hospital (Fields). 1999;27:158-64 (Practice forum)
Pathophysiology of surgical site infection in total hip arthroplasty (Seibert). 1999;27:536-42
Prescribing practice for antibiotic prophylaxis for 3 commonly performed surgeries in a teaching hospital in Brazil (Heineck et al). 1999;27:296-300
Surveillance
Handwashing before entering the intensive care unit: what we learned from continuous video-camera surveillance (Nishimura et al). 1999;27:367-9
Methodologies used in surveillance of surgical wound infections and bacteremia in Australian hospitals (Murphy and McLaws). 1999;27:474-81
Outcomes of a postdischarge surveillance system for surgical site infections at a Midwestern regional referral center hospital (Fields). 1999;27:158-64 (Practice forum)
Regional data set of infection rates for long-term care facilities: description of a valuable benchmarking tool (Stevenson). 1999;27:20-6
Role of surveillance in emerging health systems: measurement is essential but not sufficient (Lovett and Massananri). 1999;27:135-40

T

Transplantation
Infectious disease testing related to organ and tissue transplantation: results from a national laboratory survey (Domen). 1999;27:275-8
Trauma centers
APACHE II and ISS scores as predictors of nosocomial infections in trauma patients (Hurr). 1999;27:79-83
Triclosan
Comparison of the antibacterial efficacy of 4% chlorhexidine gluconate and 1% triclosan handwash products in an acute clinical ward (Faoagali et al). 1999;27:320-6
Efficacy of triclosan (Letter) (Tierno); (Reply) (Levy and McMurry); (Reply) (Slater). 1999;27:71-4
Tuberculin test
APIC position paper: responsibility for interpretation of the PPD tuberculin test (APIC Guidelines Committee). 1999;27:56-7 (Special comm.)
Tuberculin skin test conversion rate in dental health care workers—results of a prospective study (Porteous et al). 1999;27:385-7

U

Urinary tract infections
Feedback to nursing staff as an intervention to reduce catheter-associated urinary tract infections (Goetz et al). 1999;27:402-4

V

Vaccination
APIC position paper: immunization (APIC Guidelines Committee). 1999;27:52-3 (Special comm.)
Vancomycin
Improving the appropriateness of vancomycin use by sequential interventions (Lipsky et al). 1999;27:84-90
Molecular epidemiology of vancomycin-resistant enterococci from 6 hospitals in New York State (B..pp et al). 1999;27:411-7
Vancomycin use in pediatric neurosurgery patients (Shah et al). 1999;27:482-7

W

Writing for publication
Guide to writing for publication in *AJIC: American Journal of Infection Control* (Goldrick et al). 1999;27:35-46
